PROFESSIONAL SUMMARY

MCA graduate and full stack (MERN) web developer with hands-on experience building JavaScript, React, and Node.js applications. Skilled in HTML, CSS, Tailwind CSS, MySQL, and MongoDB, with a working knowledge of REST APIs and version control (Git/GitHub). Completed multiple internships and independent projects, including a face recognition attendance system and an online barter marketplace. Currently freelancing on Upwork while pursuing full stack development skills for an entry-level Software Developer role.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL

Web Development: HTML, CSS, Tailwind CSS, React, Node.js, REST API

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Thunder Client

Practices: Responsive Web Design, API Testing, Version Control

EXPERIENCE

Backend Support Executive — TechValley India

(Mar 2021 - Sep 2023)

- Resolved **15+ weekly backend tickets** and data workflow issues for internal business apps, reducing average resolution time by **20%**.
- Partnered with cross-functional dev teams to resolve critical escalations, maintaining a **98% uptime** across internal workflows.
- Created **10+ standardized troubleshooting documents**, cutting onboarding time for new support staff by **30%**.

Web Developer Virtual Intern — Octanet Services Pvt Ltd

(May 2023 - Jul 2023)

- Built responsive web pages using HTML, CSS, and JavaScript as part of a virtual development internship.
- Collaborated remotely with a development team to deliver assigned web development tasks on schedule.
- Earned a Web Developer Certification on completion of the internship.

AI-ML Virtual Intern — Google AI-ML Program (via EduSkills)

(Apr 2024 - Jun 2024)

- Completed Google's AI-ML curriculum covering machine learning fundamentals and applied Python-based model development.
- Applied AI/ML concepts to a face recognition project, reinforcing practical Python and OpenCV skills.

PROJECTS

Face Recognition Attendance System — Python, OpenCV, DeepFace

- Built a real-time facial recognition attendance pipeline processing video at **30 FPS** with **95%+ accuracy** using OpenCV and DeepFace.

SwapMarket — Online Barter Platform | React, Node.js, Express, MongoDB

- Architected a full-stack barter platform with **5+ core REST endpoints**, handling user authentication, real-time item listings, and transaction management.

Weather Application — HTML, CSS, JavaScript, OpenWeather API

- Integrated OpenWeather API to deliver real-time forecasts across **1,000+ cities** with an average response load time under **300ms**.

To-Do List Application — Node.js

- Built a task management application in Node.js to create, update, and track to-do items.

EDUCATION

Master of Computer Applications (MCA) — Galgotias University, Greater Noida, UP

(2023 - 2025)

Bachelor of Computer Applications (BCA) — Chaudhary Charan Singh University, Meerut, UP

(2017 - 2020)

CERTIFICATIONS

- Web Developer Certification — Octanet Services Pvt Ltd
- Responsive Web Design Certification — freeCodeCamp
- Google AI-ML Certification — EduSkills Foundation
